

Commemoratives

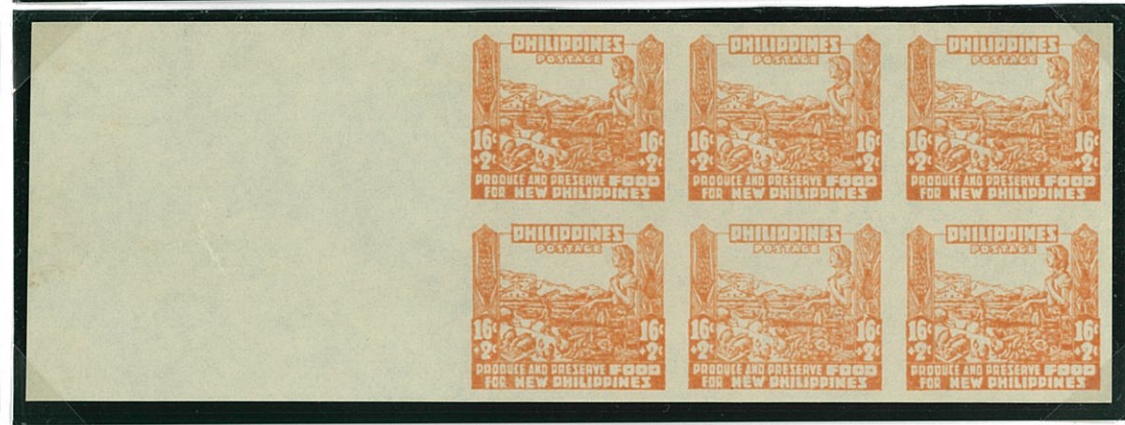

**Food Production Campaign Semi-Postals**

Issued on **Nov. 12, 1942** in three values as the first semi-postals in Philippine and the first non-provisional issue printed locally under Japanese Military Administration. The extra fees accrued to the benefit of the Philippine Red Cross. **Quantity:** 2C+1C: 400,000, 5C+1C: 200,000, 16C+2C : 50,000

**Proof**

The Issue was originally attempted to print in plate of 600 subjects (100 x 6) but the ink could not be made to spread evenly over the plate. Finally, a plate of 200 subjects (100 x 2) was adopted to the printing of the issued stamps.

Each 1 pane of 100 subjects of the 3 values was discovered in 1989 and these are considered as a part of **Trial Printing** in the plate of 600 subjects.
