TOURIST ATTRACTION SPOTS I

**TOURIST ATTRACTION STAMPS**

The Bureau of Posts issues today, November 12, 1970 the first of four series of Tourist Attraction Spots Stamps.

The stamps, printed in 5 colors by heliogravure process, measures 34x44.99 mm, perforation to perforation, each sheet containing 50 pieces. Four denominations (10-sentimo, 20-sentimo, 30-sentimo and 2-piso) were printed, each numbering 2,000,000.

*10-sentimo:* Shown at the background are the Hundred Islands of Pangasinan and a ferryboat near by ready to ferry tourists and visitors around; at the right foreground is an oxen-driven cart loaded with native wares starting its trip to different places in the country where people are eager to buy the beautifully manufactured articles.

*20-sentimo:* Pasonanca Park in Zamboanga City, gives a scenic view of the country's natural beauty. The park, also known as Limbaga Memorial Park in honor of Scout Limbaga, who died in a plane crash together with other scouts and scouters, occasionally serves as a camp site for the Boy Scouts of the Philippines during their annual jamborees. Center of attraction of the Philippines during their annual jamborees. Center of attraction is the unique, completely furnished house of native materials built on a tree overlooking the park and reached by a semicircular flight of stairs made of steel. Honeymooners find it quite fascinating.

*30-sentimo:* Pictured is the sugar industry in the island of Negros which is known as the sugarland of the Philippines. The foreground presents a picture of laborers harvesting sugar cane to be milled in a sugar central shown at the background near the foot of Mt. Kanlaon. Also shown is an allegorical statue of a Filipina on a carabao, symbolizing agriculture.

*2-piso:* The Miagao Church in Iloilo is one of the tourist spots in the Visayas. Its solid foundation and its style and architecture are a reminiscence of the past Spanish era when the horse-driven two-wheeled calesa, also depicted on the stamp, was most popular among the riding public
