

1873

In 1873, the 12-centimos de peseta and 62-centimos de peseta values were re-issued in blue and rose respectively. It remains uncertain whether these issues were intended as new issues for postal usage, or are merely colour trials. They were not officially issued, most likely due to the abdication of King Amadeo on February 11, 1873.

SPECIMEN – MINISTERIO DE ULTRAMAR / MUESTRAS

IMPERFORATE
