ONLY RECORDED MULTIPLE

UNUSED

Gooding #14F3. The 'C' of 'CORREOS' is too near to the left frame and too tall and the second 'R' is too large. The second 'R' of 'INTERIOR' is too wide at the bottom. The circle almost touches the line at the top and bottom, with only one row of the fish-scale network above the top of the central circle and two below the bottom of it. There are nine-two pearls round the central circle, and they are all distinctly separate from each other, except two near the chignon; whereas in the genuine, some of them run together. The Queen's lip is pointed somewhat upwards. The bust is too much pointed. Known unused or cancelled. (Similar plate to Gooding #15F1, #16F1 and #17F1).
