MAGNITUDE IN MINIATURE

*STAMP COLLECTING, technically known as Philately, is a universal hobby. People from all walks of life, regardless of language, race and creed, collect stamps for the simple reason that Philately is not only a democratic hobby but also a great commoner of humanity. Contrary to some belief, Stamp Collecting is not a mere pastime, but an art as well as a science. Thus, 30,000,000 stamp collectors in the whole world can't be wrong. And the thousands and thousands of stamp collectors in the Philippines are part of those 30 millions. Philatelically, the members of the Philippine Philatelic Club are, an integral part, too, of the 30 million stamp collectors of the world.
