Philippine Station
10 August 1898
17 September 1898

Registered Mail

The single ring rubber Philippine Station cds used for registered mail is recorded used only for two months (from the recently-discovered EKU cover used from Camp Dewey on 10 August as shown above to 9 October 1898). Thus, it is an elusive marking, especially on mail to foreign destinations, as in the case of the lower cover to Italy.
