Negros

Mil Sta. No.5 Bacolod
12 May 1899
31 January 1902

Bacolod used only one type of receiving mark, similar to the single-circle despatch mark but with "Rec'd." at the bottom of the circle. Registered mail from Bacolod is very unusual. Only four examples of the 4-line marking are recorded (three on outbound mail). Cover from Spain showing its use as a receiving mark is the discovery example on inbound mail.
