

Jose Rizal Stamps. Rizal remains to this day the most commemorated Filipino on Philippine stamps, and the only Filipino whose entire life story can be told through postage stamps. From his first stamp in 1906, his portrait is a constant feature in stamp designs to celebrate his life and legacy. This is why showcasing Rizal stamps along with related philatelic items is both a means to remember the grandest of Filipinos, as well as to revisit the country's history and the valued Filipino attributes that Rizal had lived by throughout his brief lifetime of 35 years.
