By Meter		\$ 0'03	each hectowat per hour.		
ELECTRIC FANS.					
Per one up to 100 wats.					

**Avesco**, which stands for Avenue Electrical Supply Co., was founded by Jose Tancongkong in 1948, in Avenida. Back in 1892, *La Electricista* provided the first electric lighting for Manila, so Jose Rizal would have seen a well-lighted Manila at night when he returned from Hong Kong on the same year before being forced to exile in Dapitan. Meantime, Avesco still operates to this day with its affiliates and more than 500 dealers nationwide.
