

BAHA

Due to its geographical location, the Philippines is prone to tropical cyclones producing heavy rains, flooding and massive destructions across the country. Super typhoons *Yolanda* (2013) and *Ondoy* (2009) are among the most devastating tropical cyclones to ever hit the country in recent times. Local and international fundraising initiatives are able to provide much-needed relief and support to the victims.

Faith, Hope and Charity: Conquest of the Philippines
