

SECOND REGULAR ISSUE

April 1911, Perf 12, Single Line PIPS Watermark

REGULAR ISSUE: fewer shade varieties exist on the 1911 issue than on the 1906 issue. Approx 200,000 issued.

1911 OFFICIAL BUSINESS OVERPRINTS: As with the 1906 issue, there are both locally applied rubber handstamp overprints and overprints typographed by the Philippine Bureau of Printing. The typographed issues are the "Bandholtz" overprints - and as noted on the previous page - *each basic type highlighted with a blue outline.*

rubber handstamp

typeset - individually printed

typeset in plate of 50

The five basic types below (all consisting of the Bandholtz varieties), were probably all experimental. None are known used. Fifty of each were issued, including the double and inverted overprints.

Varieties of the five experimental types:

second double red overprint
only recorded copy

second double red overprint
(enlarged)

offset of red overprint
on reverse
